

PM-JANMAN Program Activities in Narnoor Block

Overview of PHC Narnoor's Health Camps in Chorgoan and Bojjuguda Kolamguda

From January to June 2024, the Primary Health Centre (PHC) in Narnoor Block undertook a series of comprehensive health camps under the PM-JANMAN program. These camps were strategically organized in Chorgoan and Bojjuguda Kolamguda to provide essential health screenings and services to the community, particularly focusing on early detection and prevention of various health issues.

Summary of Camps Conducted (January - June 2023) and currently camps are going on:

Month	Bojjuguda Dates	Chorgoan Dates
January	26/1/24	25/1/24
February	10/2/24, 27/2/24	1/2/24, 26/2/24
March	2/3/24, 15/3/24	1/3/24, 14/3/24
April	8/4/24, 22/4/24	17/4/24, 26/4/24
May	7/5/24, 25/5/24	1/5/24, 23/5/24
June	12/6/24	10/6/24

Services Provided

The health camps organized by PHC Narnoor covered a wide array of health services, aiming to address various health needs of the local population. The key services provided include:

1. **Sickle Cell Screening:**
 - Detection and counseling for sickle cell anemia.
2. **NCD (Non-Communicable Diseases) Screening:**
 - Comprehensive screenings for hypertension, diabetes, and other lifestyle-related diseases.
3. **ABHA Card Generation:**
 - Facilitating the creation of Ayushman Bharat Health Account (ABHA) cards to enhance access to healthcare services.
4. **TB Screening:**
 - Early detection and awareness programs for tuberculosis.
5. **Eye Health Screening:**
 - Eye check-ups and provision of corrective measures for vision impairments.
6. **Malaria/Dengue Testing:**
 - Diagnostic tests for malaria and dengue fever to ensure timely treatment.
7. **Child Immunization:**
 - Immunizing children to protect them from various vaccine-preventable diseases.
8. **Antenatal Care (ANC) Services:**
 - Ensuring that pregnant women receive all necessary ANC services, including regular check-ups and nutritional support.
9. **Lifestyle Counseling:**
 - Counseling sessions to educate the community on lifestyle changes to prevent non-communicable diseases.
10. **Dental Health:**
 - Dental check-ups and treatments to ensure oral health.
11. **Lab Tests:**
 - A variety of laboratory tests to diagnose different health conditions.

Impact of the Health Camps

The PM-JANMAN program's health camps had a significant impact on the community, as evidenced by the following metrics:

- **Number of Beneficiaries:**
 - A large number of community members benefited from the services, including sickle cell screening, NCD screening, and TB screening.
 - A substantial number of ABHA cards were generated, facilitating better access to healthcare services.
 - Children were immunized, ensuring their protection against various diseases.

- Pregnant women availed themselves of comprehensive ANC services.
- Many individuals received counseling on lifestyle changes to prevent non-communicable diseases.
- Extensive screenings for hypertension, diabetes, and dental health were conducted, alongside various laboratory tests.

Conclusion

The health camps organized by PHC Narnoor under the PM-JANMAN program played a crucial role in improving the health and well-being of the community in Chorgoan and Bojjuguda Kolamguda. By providing essential health services and fostering awareness about preventive healthcare, these camps contributed significantly to the overall health status of the population in Narnoor Block. The sustained efforts and dedicated services have paved the way for a healthier and more informed community, aligning with the goals of the PM-JANMAN program.
